Toller News

The Out of this World Litter is 8 weeks old and on their way to their forever homes. Apollo and Little Dipper went to their new families this past weekend while Orbit will be with Donna for a little bit longer.

Apollo is now Ranger

Orbit will be now known as Pepper and will be picked up by his new family soon.

Little Dipper will now be known as Gray. We are sure all the pups will thrive in their new homes and hope to see pictures occasionally.

Last month we told you that Poppy and Juliet's mom was getting married, and they were in the wedding. Here is one of the pictures. They not only had them in wedding photos, but they were also represented on the cake topper! In other news, Poppy had another great show weekend and is halfway to her Grand Champion Bronze!

In Memoriam

Day School lost one of our favorite exuberant pups, Bodhi. We are so sad that you have crossed the Rainbow Bridge. You will be missed.

D Tails also said goodbye to Katie. Katie and her parents and brother, Maddox, have been coming to D Tails for over ten years. Katie was rescued at age three and was a very timid pup. Her parents enrolled her in agility classes, and boy, Katie came out of her shell! We have so many fond memories and she was certainly loved. Run free sweet girl.

There have been losses with famous dogs. Secret of @my_aussie_gal passed on May 14 from complications from leukemia. Here is a YouTube video of Secret, her owner, Mary, and all the amazing things they did together.

Rhode Island Search and Rescue dog, Ruby passed suddenly soon after the Netflix release of *Rescued by Ruby*. The film is a feel good, family friendly show and worth a watch.

Henry the Colorado dog also passed from Cancer. Henry's best buddy, Baloo was so despondent with the loss his family thought they might lose him too. They felt the best course of action was to adopt another dog, which they did. Baloo has improved with their new addition he picked out.

Speaking of search and rescue dogs, here is an article about a mini wire-haired Dachshund that became a cadaver dog on land and water. Because of his small size he was able to get into spaces other dogs could not venture.

Heads and Tails

Have you ever taken your dog on a picnic? The weather is certainly perfect for them. Most of our state parks allow dogs (usually on-leash) and I bet they would love the outing. Many of the classic items you pack for a picnic can be enjoyed by your dogs too. Check out this picnic list from Bring Fido. They did forget to mention a pet first aid kit that should be with you on any extended outing.
